PRECISIONCORE
H E A T • F R E E

The productive, efficient 40 ISO ppm† color MFP with PrecisionCore Heat-Free® technology.

PrecisionCore Heat-Free technology — simple, smart and clean solution that delivers outstanding quality with low waste

Powerful business productivity — print speed of 40 ISO ppm† (black/color); fast first page out

Engineered for reliable performance — recommended monthly print volume of 6,000 to 60,000 pages

Energy efficient — lowest power consumption in its class[1], up to 45% lower vs. color laser printers[1]

Remarkable image quality — DURABrite® Pro fast-drying, water-resistant pigment ink delivers vivid color and crisp black text

Robust security — full suite of advanced security features

Versatile options — the ideal solution for stacking, stapling, creating booklets and hole-punching; fax and multi-network options

Compatible with Epson® Solutions Suite and industry-leading third-party solutions — Epson Open Platform for seamless workflow integration

Large touchscreen operation — intuitive, user-friendly 10.1" color touchscreen with customizable interface

Space-saving design — uses the least amount of floor space in its class[2]; inner finishing option available

†† Black and color copy speeds are determined in accordance with ISO/IEC 29183. Actual copy times will vary based on factors including system configuration, and page complexity. For more information, visit www.epson.com/copyspeed **1** Compared to similarly featured A3 color laser printers and copiers at 31–40 ppm based on manufacturers' specifications and industry available data as of March 2022. Actual power savings will vary by product model and usage. | **2** Floor space defined as width x depth of main unit base, compared to similarly featured A3 color laser printers and copiers at 31–40 ppm based on manufacturers' specifications and industry available data as of March 2022. | **3** Most features require an Internet connection to the printer, as well as an Internet- and/or email-enabled device. For a list of Epson Connect enabled printers and compatible devices and apps, visit www.epson.com/connect | **4** Requires Epson Smart Panel app download. Data usage fees may apply. | **5** Requires an Internet connection, a free Epson Connect account and a destination email address or cloud storage account. For a list of supported cloud services, visit www.epson.com/connect | **6** Based on 200 dpi, letter-size, in black-and-white or color. | **7** Wi-Fi CERTIFIED™; level of performance subject to the range of the router being used. Wi-Fi Direct® may require printer software. | **8** Only printing and scanning are supported under Windows Server OS. | **9** Some applications and/or functions may not be supported under Mac OS X. | **10** RAM size definition is the total amount of RAM memory capacity inside the device, regardless of memory use. | **11** Internet access is required to install OS X drivers and software. | **12** Not all media types are supported for PCL printing. | **13** Cartridge yields are based on ISO/IEC 24711 tests in Default Mode printing continuously. Cartridge yields vary considerably for reasons including images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink color. All ink colors are used for printing and printer maintenance, and all colors have to be installed for printing. For print quality, part of the ink from the included cartridges is used for printer startup and a variable amount of ink remains in the cartridges after the "replace cartridge" signal. For details, visit www.epson.com/inkinfo | **14** Display permanence based on accelerated testing of prints displayed under glass in indoor display conditions; album permanence based on accelerated testing of prints in dark storage conditions. Actual print stability will vary according to media, printed image, display conditions, light intensity, temperature, humidity and atmospheric conditions. Epson does not guarantee the longevity of prints. For maximum print life, display all prints under glass or UV filter or properly store them. | **15** For convenient and reasonable recycling options, visit www.epson.com/recycle | **16** SmartWay is an innovative partnership of the U.S. Environmental Protection Agency that reduces greenhouse gases and other air pollutants and improves fuel efficiency.
